

# On-Demand Conferencing

With Segra's On-Demand Web Conferencing service, you can add the impact of dynamic content and multimedia presentations to your audio conference – with anyone, anywhere, anytime.

Share and edit documents, spreadsheets, visuals and applications. Collaborate and get feedback in an instant. Pass meeting control to selected participants. Record your entire meeting, including visuals, for playback at your convenience.

With any Web-enabled device, Internet access and On-Demand Conferencing, you're ready for richer, more productive meetings. No reservations. Just use your own personal dial-in number and access code when you want to set up a call. There are no time limits and you only pay for what you use. Plus, you can record your calls for playback at your convenience.
