

# It's important to us that we invest in our NC communities that we provide services for.

Segra is a progressive communications company that maintains an unrelenting commitment to the Carolinas to be at the forefront of technological leadership, investing in their communities, steering the way to elevate infrastructure within SC, NC and GA. The positive impact radiates throughout the Carolinas growing and investing in the workforce, infrastructure and local community. In response to changing technological requirements and an understanding that technology only exists to serve people, Segra is devoted to fostering an innovative framework.

Whether on a laptop, tablet or smartphone, you can connect to #GOSEGRA for FREE public Wi-Fi in the Greensboro Coliseum Complex Field House, as well as Segra Stadium in downtown Fayetteville. Our goal is to make our free Wi-Fi service a contribution to the growth and development in these cities.

Segra plays a major role in the advancement of research in the Carolinas education and healthcare industry. A vital infrastructure partner for the NCREN network, we provided and maintain a fiber-optic backbone of 650 route miles that connects middle-mile broadband infrastructure in 69 rural and underserved counties in North Carolina.

For the past four years, we've partnered with the Eastern Carolinas Muscular Dystrophy Association in 48 counties throughout North Carolina, to help raise over \$435,000 through their Toast to Life Gala. This money has helped further research, sent MDA Kids to summer camp, and provided aid for families dealing with any of the 43 diseases attributed to Muscular Dystrophy.
