

# Welcome to Segra.

As one of the largest independent fiber network companies in the Eastern US, we provide a broad and dense service footprint across the Mid-Atlantic and Southeast. Our state-of-the-art voice and data technology solutions serve businesses of all sizes as well as some of the world's largest carriers.

But that's not what we're most proud of. What we work at day and night is delivering never-say-never customer service. In fact, we've re-engineered our entire operating model to ensure we deliver a delightful customer experience — every time.

## OUR HISTORY

Segra was formed by the joining of Lumos Networks and Spirit Communications in 2018 and re-branded as Segra in 2019. We continue to build on the legacy of our two companies whose founders both had a passion for technology, communications, and product innovation.

## OUR NAME

Our name "Segra" is derived from a Swedish verb meaning "to win." We chose this name carefully, knowing that a commitment to win expands far beyond our walls. This commitment translates into an ongoing partnership with our customers, giving them the freedom to grow and reach their potential.
